

THE ORIGINAL®

HIGH ABRASION

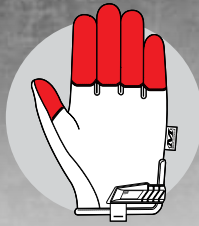

SPECIALTY HAND PROTECTION

Stop throwing away perfectly good gloves due to shredded fingertips. We've covered the fingers and thumb of our Original® Glove with ultra grip, long wearing Clarino High Abrasion Resistant (HAR™) material. Extending up the fingertips, this material provides 60% more coverage and protection in these high wear areas and fuses into synthetic leather or spandex at the top of each finger, reducing potential failure of fingertip seams.

REINFORCEMENT

Clarino® HAR™ wraps around top of thumb and fingers for added durability.

EXTRA DURABILITY

Clarino® HAR™ covers high wear areas for better wear.
